What is an ABPN (American Board of Psychiatry and Neurology) Board-Certified Psychiatrist?

Patients can be assured that an ABPN board-certified psychiatrist has specialized skills and knowledge to diagnose and treat problems ranging from emergencies to the long-term medical management of psychiatric disorders.

The conditions psychiatrists treat include disorders such as:

- ADHD
- Autism/Aspergers
- Bipolar disorders
- Depressive disorders
- Anxiety disorders
- Mood disorders
- Adjustment reactions

Psychiatrists can order diagnostic laboratory tests, prescribe medications, provide psychotherapy, evaluate and treat psychological and interpersonal problems, and give continuing care for psychiatric problems. Psychiatrists are also prepared to intervene with individuals and families who are experiencing a crisis or dealing with great stress. Psychiatrists may also act as consultants to primary care physicians, or to non-physicians such as psychologists, social workers and nurses.

Come feel our passion for patient-centered behavioral health care at Family Behavioral Health

At Family Behavioral Health, we believe that the ordinary is not enough for your child or family’s behavioral health.

Our team of experts understand how complicated and sensitive it can be to have mental health needs. We all have a passion and expertise for Autism Spectrum Disorders. We believe in providing multi-modal care that reflects the biological, psychological and social needs of patients. No “Pez-dispensing” philosophy here.

Our mission is to provide excellent, respectful, compassionate, kind, creative, receptive, expansive and hope-energized patient care.

This team of healers believe it’s important to be aware of the current and cutting edge scientific research in behavioral health and focusing on proven and time honored mind-body cognitive behavioral centered healing. We believe you deserve the whole package in your healing process: total family behavioral health based in the suburbs of Chicago.

We also offer group therapy for adults, children and adolescents. Our groups are highly interactive, Cognitive Behavioral Therapy treatments. They are helpful in the treatment of: depression, anxiety, childhood and adult ADHD, grief/loss, interpersonal relationships, social skills training and anger management.

We are located in the suburbs of Chicago. We offer child, adolescent and adult psychiatry and more in one location. We are able to provide you with an appointment within 24 hours of your call during normal business hours. We also have new online appointment capability.

“Hope is a natural part of the Universe. The Universe is so large that at any instant a new and positive event can uplift your life. All you have to do is look up at the sky to realize that we still have so much knowledge to explore and so many ways to overcome your pain. Keep your hope alive.”

-M. Parvin, M.D.
